

The Future of Energy

THE SOUTHEASTERN WIND COALITION

SEWC is a nonprofit that uses a data-driven and economic-focused approach to help the Southeast take advantage of wind opportunities.

WIND AND ENERGY STORAGE ANALYSIS INTERN

I compiled a state-by-state analysis of wind implementation, resource potential, market structures, regulatory environments, utility actions, and energy storage valuation.

KEY TASKS

Consolidated 2019 database of 400+ energy/demand rates

Updated slide decks of energy storage and wind energy

Read through Integrated Resource Plans (IRP), request proposals (RFP)

Attended webinars on federal and state energy policy

Outlined federal funding opportunities anticipated from the American Jobs Plan
