

SUSTAINABILITY, IMPACT AND A SUMMER OVER ZOOM

WORKING FOR THE CENTER FOR
SUSTAINABLE ENTERPRISE AS A
BLENDED FINANCE INTERN

OVERVIEW OF OUR WORK

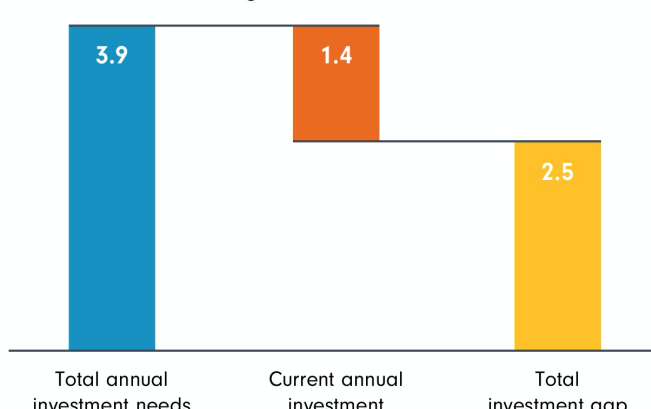

The Center for Sustainable Enterprise promotes action to accelerate progress in social and environmental sustainability through innovative business solutions. This summer, our work focused on curating resources and programs around blended finance for achieving the UN Sustainable Development Goals (UNSDGs)

THE SDG FUNDING GAP

With the dual crisis' of covid-19 and climate change exacerbating existing inequalities, the road to achieving the 2030 Sustainable Development Goals is challenging. To deploy capital and resources to those that need it the most, we need innovative financing mechanisms.

Estimated investment gap in key SDG sectors, 2015-2030

Trillions of USD, annual average

Source: World Economic Forum

PROJECT COMPONENTS

1) Curating Industry Resources on Blended Finance

2) Making a story map with criteria for successful projects and stories from all over the world

3) Designing the LIFT challenge
